

Amendments to the Specification:

Please amend the paragraph beginning on p. 12, l. 21 as follows:

Besides the chemical protection layer 36 and the substrate body 24, the glove 20 can also contain other layers. For example, as shown in Fig. 2, the glove 20 can contain a coating 26 that defines a surface that contacts the body of the user 22 during use (i.e., internal, body-contacting surface). In this embodiment, the coating 26 includes a donning layer 30 overlying and contacting the substrate body 24 and a surfactant layer 32 overlying and contacting the donning layer 30.
